Requires Wi-Fi and Router with Internet.

Zimi Matter Connect ZMC

- Add compatibility for all Zimi devices to work with Matter and Apple Home.

***Important: For your safety and the safety of others, we strongly recommend the use of a Photo Electric Beam with your E-Door Connect.** A Photo Electric Beam is designed to detect an obstruction while the door closes and sends a signal to the opener to reverse or stop the door movement. If you do not already have Photo Electric Beams installed, please contact your local Steel-Line branch for a quotation to have them installed.
